

Remarks

This application was filed on March 10, 2004 and the applicant and then assignee at that time qualified for small entity status treatment. By way of an assignment made in September of 2006, the application was assigned to the current assignee, G4S Justice Services (Canada) Inc. The attorneys of record were not aware that the current assignee did not qualify for small business entity status at the time the issue fee was paid on October 22, 2008.

After the issue fee was paid, the undersigned attorney was advised that the current assignee is a wholly owned subsidiary of Group 4 Securicor PLC (G4S) UK, a company that does not qualify for small entity treatment. Therefor, submitted herewith is the additional portion of the issue fee of \$755.00 that would have been due when the issue fee was paid. It is requested that the Patent Office receive the additional fee and note on the record that this application currently does not qualify for small entity status.

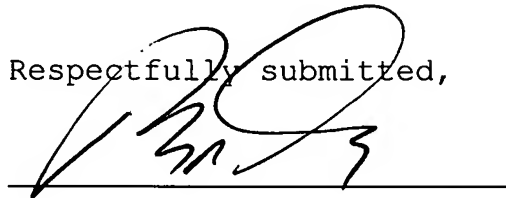

Further, the failure to make the change in entity status and pay the increased fee prior to payment of the issue fee occurred without any deceptive intent on the part of the applicants and the attorneys and agents of record and the attorneys have acted without delay in bringing this matter to the attention of the Office and to pay the balance of the issue fee due.
